### **Consultant Ophthalmology Post**

- 1994 - 1996 Consultant Ophthalmologist, Western Eye Hospital and Hillingdon Hospital
- 1996 – 2014 Consultant Ophthalmologist, Western Eye Hospital and Charing Cross Hospital.

Jane Olver was appointed in 1994 as consultant ophthalmic surgeon at the Western Eye Hospital and Hillingdon Hospital with a special interest in paediatric ophthalmology and strabismus, and in oculoplastic, lacrimal and orbital surgery.

She went to the Eye and Ear Hospital in Boston to learn Endoscopic Lacrimal Surgery in 1995 then set up the Oculoplastic and Lacrimal service at the Western Eye. She was one of the first ophthalmologists to introduce endonasal DCR surgery in the UK and was instrumental in co-writing the NICE recommendations for Training in Endonasal Lacrimal Surgery.

She moved from Hillingdon Hospital and became a consultant ophthalmic, oculoplastic and orbital surgeon at the Western Eye Hospital and Charing Cross Hospital London in 1996, where she led the Oculoplastic and Orbital Service and ran the Oculoplastic Fellowship Training Program. Over the last few years she developed an interest in all aspects of periocular, facial and aesthetic surgery, both within the NHS and Privately. Throughout this time she maintained her weekly general ophthalmology clinic.

### **Sub-Speciality Training**

- Paediatric Ophthalmology and Strabismus with Mr Peter Fells and Mr John Lee. This second Fellowship included surgical correction of many patients with eyelid malpositions from thyroid eye disease as well as providing an introduction to endoscopic trans-nasal surgery by working closely with the ENT surgeon. This led to her later sub-speciality interest in endolacrimal surgery.

### **Ophthalmology Training**
